

# Business of the WEEK!

The Disc-It Grill is the only HIGH QUALITY fully customizable outdoor cooking product to be found anywhere on the market.

This Disc-it is often referred to as a Southwest Outdoor Cooking system, a cowboy wok, a TEXAS WOK, a chinese wok or even a paella pan.

Regardless of the terminology, the Disc-It grill is well known for all of it's capabilities of preparing the finest cuisine ranging from fajitas, stir fry, discada, popcorn and deserts such as Bananas Foster.

The unusual concave shape of the PLOW DISC strongly resembles the centuries-old Oriental wok cooking pot design, a beloved cooking method in homes around the world and a staple in any restaurant offering Asian cuisine. You can cook anything on a Disc-It grill that you can cook on a regular barbeque grill, stovetop or wok. From steaks and a full breakfast to stir fry and even popcorn, there's almost nothing you can't cook on a Disc-It grill

---

Beautify your home or business with custom fencing and gates.

We will incorporate almost any design or logo into your panel.

Free local on-site quotation provided.
